

# SHUBHAM PATIL

Software Engineer – React.js | Node.js | Full-Stack Web | SaaS & AgriTech | Drone Software

+91 7774817654 | shubhampatil.sp25597@gmail.com | linkedin.com/in/shubhampatilmobiledev | Nashik / Pune, Maharashtra, India

## PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3.5+ years of experience building scalable full-stack web applications across SaaS, AgriTech, and Drone software domains. Currently SDE – Platform at Auxy AI (Pune), developing React.js-based SaaS platforms. At PDRL, led frontend and backend web development for AeroGCS Enterprise, AeroGCS Defence, AeroGCS GREEN, and the BhuMeet web ecosystem using React.js, Node.js, REST APIs, WebSocket, Firebase, and Google Maps API. Passionate about building high-performance, user-centric products with measurable real-world impact. Active tech community contributor as GDG & AWS User Group Nashik Co-Organizer.

## TECHNICAL SKILLS

|             |                                                                                                      |
|-------------|------------------------------------------------------------------------------------------------------|
| Languages   | JavaScript (ES6+), TypeScript, Java, Python                                                          |
| Frontend    | React.js, HTML5, CSS3, Tailwind CSS, Redux, Context API, Responsive UI, Component Architecture       |
| Backend     | Node.js, Express.js, REST API Design & Integration, WebSocket                                        |
| Firebase    | Firebase Auth, Firestore, Realtime Database, Cloud Messaging (FCM), Crashlytics                      |
| Databases   | MySQL, MongoDB, SQLite, Offline-First Design                                                         |
| Mapping     | Google Maps API, Places SDK, Real-Time Location & Telemetry Visualization                            |
| Drone / UAV | AeroGCS Enterprise, AeroGCS Defence, AeroGCS GREEN, MAVLink Protocol, UAV Telemetry, Mission Planner |
| Tools       | VS Code, Git, GitHub, Postman, Gradle, Google Play Console                                           |
| Testing     | Jest, JUnit, Firebase Crashlytics                                                                    |

## PROFESSIONAL EXPERIENCE

### SDE – Platform Auxy AI

Dec 2025 – Present  
Pune, Maharashtra, India

- Building scalable React.js-based frontend systems and platform features that improve customer experience and product performance for a growing SaaS platform.
- Developing modern web interfaces, optimizing UI/UX performance, and collaborating closely with backend and product teams to deliver reliable, production-grade features.
- Driving improvements to frontend architecture, reusable component design, and cross-team delivery workflows in an agile environment.

### Senior Software Engineer – Web (React.js / Node.js) Passenger Drone Research Pvt. Ltd. (PDRL)

Apr 2025 – Jan 2026  
Nashik, Maharashtra, India

- AeroGCS Enterprise (React.js / Node.js):** Built an enterprise-grade Ground Control Station web platform with React.js dashboards for fleet management, mission scheduling, and live drone telemetry visualization; developed Node.js / Express REST APIs for data aggregation, user management, and operational reporting.
- AeroGCS Defence (React.js / Node.js):** Developed secure, high-reliability web modules for defence-grade drone operations including mission authorization workflows, restricted-zone mapping overlays, and encrypted real-time telemetry streams ensuring compliance with strict security standards.
- BhuMeet Web Application (React.js / Node.js):** Designed and built the BhuMeet web portal enabling drone service providers, dealers, and administrators to manage service bookings, pilot assignments, fleet

operations, revenue tracking, and analytics dashboards through a responsive React.js frontend backed by Node.js REST APIs.

- **AeroGCS GREEN – Web Dashboard:** Built real-time mission monitoring and post-mission analytics dashboards with interactive map visualizations, reducing mission error reporting time by 40%.
- **WebSocket & Real-Time Integration:** Implemented WebSocket-based live telemetry feeds across all GCS web platforms, ensuring 99.9% uptime for real-time drone status and mission updates.
- **Performance & Architecture:** Established reusable React component libraries and Node.js API patterns across products, accelerating feature delivery and reducing code duplication by 35%.
- **Google Maps & Geospatial:** Integrated Google Maps API and Places SDK for interactive mission zone drawing, live location tracking, and geofencing across Enterprise and Defence platforms.

**Software Engineer – Web (React.js / Node.js)**  
**Passenger Drone Research Pvt. Ltd. (PDRL)**

Jul 2024 – Aug 2025  
Nashik, Maharashtra, India

- **BhuMeet Farmer Portal:** Developed a responsive web portal for farmers to request drone spraying services, track service status in real time, and manage booking history — reducing service request time by 50%.
- **BhuMeet Pilot Dashboard:** Built a real-time task management dashboard for pilots with live location updates and job status workflows, improving pilot response efficiency by 35%.
- **BhuMeet Service Provider Portal:** Engineered a centralized web-based service management system for drone operators covering pilot allocation, fleet tracking, invoicing, and revenue analytics — improving operational efficiency by 45%.
- **REST API Integration:** Consumed and built RESTful APIs using Node.js / Express; implemented token-based authentication, role-based access control, and secure data communication across all BhuMeet web portals.
- **Firebase Integration:** Integrated Firebase Cloud Messaging for real-time in-browser push notifications and Firebase Auth for secure user authentication across web applications.
- Maintained consistent UI/UX across all web products using reusable React components, responsive layouts, and cross-browser compatibility best practices.

**Junior Consultant – Web Developer**  
**Startup0km Pvt. Ltd.**

Aug 2022 – Jul 2024  
Nashik, Maharashtra, India

- Designed and developed a cutting-edge web application achieving a 95% increase in platform engagement and 70% improvement in user retention through intuitive UX and feature enhancements.
- Resolved critical bugs and optimized performance resulting in a 50% reduction in crash rates and 30% faster load times.
- Integrated Web APIs, payment gateways, social media platforms, and third-party APIs contributing to a 40% increase in feature utilization.
- Managed end-to-end development lifecycle from planning and development to deployment and post-launch support.

**Internship Trainee**  
**Omnisure Solution Nashik**

Jun 2021 – Nov 2021  
Nashik, Maharashtra, India

- Gained hands-on experience in web application development, software testing, and industry development best practices.

## EDUCATION

**Master of Business Administration – AI & Machine Learning**  
Savitribai Phule Pune University, Pune

2023

**Bachelor of Science – Computer Science**  
Savitribai Phule Pune University, Pune

2020

## CERTIFICATIONS & COMMUNITY

- **Certifications:** Web Designing | MySQL 5.6 Developer | Python | Django
- **Community:** GDG & AWS User Group Nashik – Co-Organizer. Regularly organizes developer events, workshops, and knowledge-sharing sessions for the local tech community.
